

## Homework 5

September 14, 2015

Name \_\_\_\_\_

1. Solve the following expression. $17 - 19.3$	2. Solve the following expression. (division) $68.2 \div 2.2$
3. Solve the following expression. $4.271 + 1.629$	4. Solve the following expression. (division) $1.68 \div 0.15$
5. Solve the following expression. $3.6 \times 0.85$	6. Solve the following expression. $0.228 \div 0.03$
7. Solve the following expression. $2.5 \times 21.4$	8. Solve the following expression. (division) $58.2 \div 2$
9. Solve the following expression. $18 - 3.83$	10. Solve the following expression. (division) $0.38 \div 4$
11. Solve the following expression. (division) $\frac{4}{9} \div \frac{9}{10}$	12. Solve the following expression. $1.4 \times 4.013$
13. Solve the following expression. (division) $\frac{5}{7} \div \frac{5}{6}$	14. Solve the following expression. (division) $\frac{7}{8} \div \frac{2}{3}$
15. Solve the following expression. (division) $2\frac{1}{3} \div 1\frac{3}{5}$	16. Solve the following expression. (division) $4\frac{1}{5} \div \frac{1}{2}$
17. Simplify the following fraction. $\frac{105}{4}$	18. Simplify the following fraction. $\frac{68}{3}$
19. Make the following fraction improper. $6\frac{3}{7}$	20. Make the following fraction improper. $9\frac{2}{7}$
